Priya Kumar

React Frontend Developer (Fresher)

Chennai, Tamil Nadu | +91 98765 43210 | priya.kumar@example.com | github.com/priyakumar-dev

CAREER OBJECTIVE

Motivated B.E. Information Technology graduate with hands-on project experience in React, Redux and Bootstrap, and working knowledge of Java, Spring Boot and MySQL. Seeking a React Frontend Developer position where I can build responsive, user-friendly interfaces and grow as a full-stack developer.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, Bootstrap Icons
State & Routing: Redux, React Router, Hooks (useState, useEffect), Axios
Backend: Java, Spring Boot, Spring Data JPA, REST APIs, JWT Authentication
Database: MySQL
Tools: Git & GitHub, VS Code, IntelliJ IDEA, Postman, Swagger, Vite

PROJECTS

CareerCrafter - Job Portal (React, Redux, Bootstrap, Spring Boot, MySQL)
Academic full-stack project

- Built the job seeker module: profile management, job search with filters, apply with PDF resume upload, saved jobs, notifications and messages.
- Managed applications, resumes and notifications using Redux; added an unread notification badge that refreshes every 30 seconds.
- Implemented role-based protected routes with JWT and clear, user-friendly error messages on every form.

Student Management System (Java, Spring Boot, MySQL)
Academic project

- Created REST APIs for CRUD operations with validation, exception handling and Swagger documentation.
- Used Spring Data JPA to map entities to MySQL tables and wrote unit tests for the service layer.

Personal Portfolio Website (React, Bootstrap)
Personal project

- Designed a responsive multi-section portfolio with routing, hover effects and a validated contact form.

EDUCATION

B.E. Information Technology - Chennai
2021 - 2025 | CGPA: 8.3 / 10

CERTIFICATIONS & TRAINING

- Full Stack Development with Java and React - Hexaware training programme
- Responsive Web Design (freeCodeCamp)

STRENGTHS

Quick learner | Good problem solving | Team player | Clear communication
