# Java Full Stack Developer

Shine Solutions Ltd. | Job Description

| | |
|---|---|
| **Company** | Shine Solutions Ltd. |
| **Role** | Java Full Stack Developer |
| **Location** | Bengaluru (Hybrid) |
| **Employment Type** | Full Time |
| **Experience** | 1 - 3 years |
| **Salary** | INR 5,00,000 - 9,00,000 per year |

## About the Role

We are looking for a Java Full Stack Developer to design, build and maintain web applications used by our clients every day. You will work on REST APIs with Spring Boot and on responsive user interfaces with React, inside a small agile team that ships in two-week sprints.

## Key Responsibilities

- Develop and maintain RESTful APIs using Java and Spring Boot, with Spring Data JPA for persistence.
- Build responsive front-end screens using React, JavaScript, HTML5, CSS3 and Bootstrap.
- Design database tables and write efficient queries in MySQL.
- Secure applications with JWT-based authentication and role-based access control.
- Write unit tests with JUnit and Mockito and fix bugs found in code reviews.
- Document APIs with Swagger and follow clean coding standards and Git workflows.
- Take part in sprint planning, daily stand-ups and demos.

## Required Skills

- Java 17+, OOP concepts, collections and exception handling.
- Spring Boot, Spring Data JPA, Spring Security, Maven.
- REST API design: HTTP methods, status codes, request and response DTOs.
- React: components, props, hooks, forms and routing.
- JavaScript (ES6), HTML5, CSS3, Bootstrap.
- MySQL or any relational database; Git and GitHub.

## Good to Have

- Docker, SonarQube, CI/CD pipelines (GitHub Actions or Jenkins).
- Experience with AWS (EC2, RDS) or Azure.
- Redux, TypeScript, OAuth 2.0.

## Eligibility

B.E. / B.Tech in Computer Science, IT or a related field, or MCA. Freshers with strong project work (a full-stack project on GitHub) are welcome to apply.

## What We Offer

- Competitive salary and annual performance bonus.
- Health insurance and learning budget.
- Mentoring from senior engineers and a clear growth path.

## How to Apply

Apply through CareerCrafter with your updated resume and GitHub link. Shortlisted candidates will be contacted for a technical interview within 7 days.
